

**Call Craft Oil at 1-800-451-LUBE (5823)
& schedule your maintenance cleaning today.**

Craft Oil Corp. has been the authorized sales and service center for Clean Burn furnaces for over 10 years. Our technicians are fully trained professionals with extensive training in waste oil heating applications. We also carry a full parts inventory to maintain your Clean Burn furnace. **It is recommended you clean your burner every 1,000 hours.**

Bring new life to your Clean Burn furnace by getting it serviced today. Save money by using your economical waste oil burner when the cold weather hits and by getting it serviced early.

CLEAN BURN MAINTENANCE CLEANING SPECIAL

Cleaning Features Includes:

1. Vacuum ashes from combustion chamber and flu tubes.
2. Vacuum chimney stack and check for wear.
3. Inspect barometric damper operation; make necessary adjustment(s).
4. Inspect burner for worn or weak components.
5. Replace pre-heater block with flushed block.
6. Clean filters in the tank, pump and canister assembly.
7. Check oil lines, suction and pressure.
